

**UNIVERSITY OF CALIFORNIA, BERKELEY
RICHMOND FIELD STATION
MONTHLY SUMMARY REPORT**

JUNE 15, 2009

This monthly summary report (MSR) summarizes environmental site investigation and remediation activities conducted on behalf of The Regents of the University of California (UC) at the University of California, Berkeley's Richmond Field Station in accordance with Section 6.3 of the California Environmental Protection Agency, Department of Toxic Substances Control (DTSC) Site Investigation and Remediation Order (Order), Docket No. I/SE-RAO 06/07-004, effective on September 20, 2006.

a. Specific actions taken by or on behalf of Respondents during the previous calendar month (May 2009).

- Implementation of invasive plant control continued as required by the *Invasive/Exotic Vegetation Management Program*.
- Feral animal trapping was completed as required by the *Feral Animal Management Program*.
- On May 1, 2009, UC Berkeley representatives met with DTSC to discuss DTSC's comments on the draft Field Sampling Workplan (FSW) required by Order Section 5.3.1 and submitted to DTSC on February 27, 2009. On May 21, 2009 a follow-up meeting occurred to evaluate habitat areas of the RFS.
- On May 26, 2009, the Final Implementation Summary Report for a Time Critical Removal Action in Two Subareas in the Western Transition Area was submitted. The report was subsequently approved by DTSC on May 29, 2009.
- On May 26, 2009, the results report of March 2, 2009 stormwater sampling required by the Order section 5.1.4 Groundwater, Surface Water and Sediment Monitoring Plan (BBL 2004) was submitted.

- b. Actions expected to be undertaken during the current calendar month (June 2009).
- Implementation of invasive plant control will continue as required by the *Invasive/Exotic Vegetation Management Program*.
 - Results from the April 2009 surface water and sediment samples collected as required by the Order section 5.1.4 Groundwater, Surface Water and Sediment Monitoring Plan (BBL 2004) in support of the Western Stege Marsh Monitoring program will be submitted.
- c. All planned activities for the next month (July 2009).
- UC Berkeley will submit a final FSW to DTSC approximately 30 days following DTSC's concurrence with UC's response to DTSC's comments on the draft FSW.
 - The draft Field Sampling Plan Addendum 1 to the FSW for Phase 1 of site investigations will be submitted to DTSC approximately 40 days following DTSC's concurrence with UC's response to DTSC's comments on the draft FSW.
 - It is anticipated that the *Year 4 Monitoring Report for the Western Stege Marsh Restoration Project* required by Order Section 5.16 will be submitted to DTSC.
 - Implementation of invasive plant control will continue as required by the *Invasive/Exotic Vegetation Management Program*.
 - Feral animal trapping will be completed as required by the *Feral Animal Management Program*.
- d. Any requirements under the Order that were not completed.
- None.
- e. Any problems or anticipated problems in complying with this Order.
- Completion of the Field Sampling Workplan and other tasks is dependent on the ability to meet with DTSC staff on a timely basis and may require adjusting schedules and extensions of deadlines.
