

**UNIVERSITY OF CALIFORNIA, BERKELEY  
RICHMOND FIELD STATION  
MONTHLY SUMMARY REPORT**

**FEBRUARY 15, 2010**

This monthly summary report (MSR) summarizes environmental site investigation and remediation activities conducted on behalf of The Regents of the University of California (UC) at the University of California, Berkeley's Richmond Field Station in accordance with Section 6.3 of the California Environmental Protection Agency, Department of Toxic Substances Control (DTSC) Site Investigation and Remediation Order (Order), Docket No. I/SE-RAO 06/07-004, effective on September 20, 2006.

a. Specific actions taken by or on behalf of Respondents during the previous calendar month (January 2010).

- Implementation of invasive plant control continued as required by the *Invasive/Exotic Vegetation Management Program*.
- Clapper rail surveying for the *Year 5 Monitoring Report for the Western Stege Marsh Restoration Project* commenced in January.

b. Actions expected to be undertaken during the current calendar month (February 2010).

- Implementation of invasive plant control will continue as required by the *Invasive/Exotic Vegetation Management Program*.
- Feral animal trapping will be completed as required by the *Feral Animal Management Program* (rescheduled from January because adverse weather conditions in January precluded trapping).
- Clapper rail surveying for the *Year 5 Monitoring Report for the Western Stege Marsh Restoration Project* will be completed in January, February, and March.
- A near surface sediment sample will be collected in February from the Western Stege Marsh as continued monitoring for worker protection and evaluation of current near surface sediment conditions consistent with the March 2008 Agency for Toxic Substances and Disease Registry Public Health Assessment and California Department of Public Health findings and recommendations.
- Land surveying of marsh elevations for the *Year 5 Monitoring Report for the Western Stege Marsh Restoration Project* will be completed.

- c. All planned activities for the next month (March 2010).
- Implementation of invasive plant control will continue as required by the *Invasive/Exotic Vegetation Management Program*.
  - UC Berkeley will submit the final Field Sampling Workplan (FSW) to DTSC, within 30 days following DTSC's concurrence to UC Berkeley's response to DTSC's comments (dated December 1, 2009 and received December 10, 2009) on UC Berkeley's Response to Comments dated September 19, 2009 for the draft FSW.
- d. Any requirements under the Order that were not completed.
- Feral animal trapping was not completed in January due to adverse weather conditions. Trapping has been rescheduled for February.
- e. Any problems or anticipated problems in complying with this Order.
- Completion of the Field Sampling Workplan and other tasks is dependent on the ability to meet with DTSC staff on a timely basis and may require adjusting schedules and extensions of deadlines.
