

**UNIVERSITY OF CALIFORNIA, BERKELEY  
RICHMOND FIELD STATION  
MONTHLY SUMMARY REPORT**

**JANUARY 15, 2012**

This monthly summary report (MSR) summarizes environmental site investigation and remediation activities conducted on behalf of The Regents of the University of California (UC) at the University of California, Berkeley's Richmond Field Station in accordance with Section 6.3 of the California Environmental Protection Agency, Department of Toxic Substances Control (DTSC) Site Investigation and Remediation Order (Order), Docket No. I/SE-RAO 06/07-004, effective on September 20, 2006.

a. Specific actions taken by or on behalf of Respondents during the previous calendar month (December 2011).

- On December 9, 2011, UC Berkeley submitted the final revised Phase I Groundwater April 2011 Sampling Results Technical, dated August 19, 2011, including a response to comments to DTSC's November 18, 2011 comment letter.

b. Actions expected to be undertaken during the current calendar month (January 2012).

- UC Berkeley submitted a Draft Phase I October 2011 Groundwater Sampling Results Technical Memorandum on January 10, 2012.
- On January 11, 2012, UC Berkeley received comments from DTSC regarding the final Phase I, April 2011 Groundwater Sampling Results Technical Memorandum, dated December 9, 2011. UC Berkeley will respond to the letter, including revised tables as recommended by DTSC, within 21 days (January 31, 2012).
- UC Berkeley will submit a wetlands delineation report to USACE, DTSC, and the U.S. Fish and Wildlife Service as requested by USACE at the October 13, 2011 agencies meeting. A jurisdictional wetlands delineation at the restored marsh area was conducted on November 21, 2011 to verify completion of conditions of USACE Clean Water Act, Section 404, Nationwide Permit (NWP) 38 #28135S issued for the 2002-2004 remediation and restoration in Western Stege Marsh.
- UC Berkeley will submit a Draft Well Closure Documentation Report by January 20, 2012.
- UC Berkeley will submit a Draft Phase II Field Sampling Results Technical Memorandum by January 20, 2012.
- UC Berkeley will meet with DTSC during the last week of January to review the Phase II Field Sampling results and discuss proposed scope and estimated sampling locations in portions of previously identified data gap areas of the RFS for Phase III sampling.

c. All planned activities for the next month (February 2012).

- UC Berkeley anticipates submitting a draft Phase III Field Sampling Workplan to continue to assess by the end of February 2012.

- A near surface sediment sample will be collected in January or February from the Western Stege Marsh as part of continued monitoring for worker protection and evaluation of current near surface sediment conditions consistent with the March 2008 Agency for Toxic Substances and Disease Registry Public Health Assessment and California Department of Public Health findings and recommendations.

d. Any requirements under the Order that were not completed.

None.

e. Any problems or anticipated problems in complying with this Order.

- Completion of implementation of the Field Sampling Workplan and other tasks is dependent on the ability to meet with DTSC staff on a timely basis and may require adjusting schedules and extensions of deadlines.
