

**UNIVERSITY OF CALIFORNIA, BERKELEY
RICHMOND FIELD STATION
MONTHLY SUMMARY REPORT**

FEBRUARY 15, 2012

This monthly summary report (MSR) summarizes environmental site investigation and remediation activities conducted on behalf of The Regents of the University of California (UC) at the University of California, Berkeley's Richmond Field Station in accordance with Section 6.3 of the California Environmental Protection Agency, Department of Toxic Substances Control (DTSC) Site Investigation and Remediation Order (Order), Docket No. I/SE-RAO 06/07-004, effective on September 20, 2006.

- a. Specific actions taken by or on behalf of Respondents during the previous calendar month (January 2012).
- UC Berkeley submitted a Draft Phase I October 2011 Groundwater Sampling Results Technical Memorandum to DTSC on January 10, 2012.
 - UC Berkeley submitted a Draft Well Closure Documentation Report to DTSC on January 20, 2012.
 - UC Berkeley submitted a Draft Phase II Field Sampling Results Technical Memorandum to DTSC on January 20, 2012.
 - UC Berkeley met with DTSC staff on January 26, 2012 to review the Phase II Field Sampling results and discuss proposed scope and estimated sampling locations in portions of previously identified data gap areas of the RFS for Phase III sampling.
- b. Actions expected to be undertaken during the current calendar month (February 2012).
- On February 1, 2012, UC Berkeley responded to the January 11, 2012 comments letter from DTSC regarding the Final Phase I, April 2011 Groundwater Sampling Results Technical Memorandum, dated December 9, 2011.
 - On February 3, 2012, a near surface sediment sample was collected from the Western Stege Marsh as part of continued monitoring for worker protection and evaluation of current near surface sediment conditions consistent with the March 2008 Agency for Toxic Substances and Disease Registry Public Health Assessment and California Department of Public Health findings and recommendations.
 - On February 7, 2012, UC Berkeley received a comments letter from DTSC regarding the January 10, 2012 Draft Phase I October 2011 Groundwater Sampling Results Technical Memorandum. UC Berkeley will submit a response to these comments by February 28, 2012.
 - It is anticipated that UC Berkeley will submit a wetlands delineation report to USACE, DTSC, and the U.S. Fish and Wildlife Service in February 2012 as requested by USACE at the October 13, 2011 agencies meeting. A jurisdictional wetlands delineation at the restored marsh area was conducted on November 21, 2011 to verify completion of conditions of

USACE Clean Water Act, Section 404, Nationwide Permit (NWP) 38 #28135S issued for the 2002-2004 remediation and restoration activities in Western Stege Marsh.

c. All planned activities for the next month (March 2012).

- UC Berkeley anticipates submitting a draft Phase III Field Sampling Workplan to continue to assess by the end of March 2012.

d. Any requirements under the Order that were not completed.

None.

e. Any problems or anticipated problems in complying with this Order.

- Completion of implementation of the Field Sampling Workplan and other tasks is dependent on the ability to meet with DTSC staff on a timely basis and may require adjusting schedules and extensions of deadlines.
