

**UNIVERSITY OF CALIFORNIA, BERKELEY**  
**RICHMOND FIELD STATION**  
**MONTHLY SUMMARY REPORT**  
**May 15, 2013**

This monthly summary report (MSR) summarizes environmental site investigation and remediation activities conducted on behalf of The Regents of the University of California (UC) at the University of California, Berkeley's Richmond Field Station in accordance with Section 6.3 of the California Environmental Protection Agency, Department of Toxic Substances Control (DTSC) Site Investigation and Remediation Order (Order), Docket No. I/SE-RAO 06/07-004, effective on September 20, 2006.

- a. Specific actions taken by or on behalf of Respondents during the previous calendar month (April 2013).
- On April 1, 2013, the new piezometers (B197R and DHR) installed on March 26, 2013 were developed.
  - On April 3, 2013, Tetra Tech submitted by email the response to DTSC's February 14, 2013 comment letter on the January 9, 2013 Draft Site Characterization Report (SCR), Proposed Richmond Bay Campus which includes the Field Sampling Plan Phase III results. DTSC requested a red-line version of the changes proposed in the final SCR, which Tetra Tech submitted on April 18, 2013.
  - During the first and second weeks of April, annual groundwater monitoring at a subset (40) of the 50 shallow piezometers, as described in the December 12, 2012 *Final Phase I November 2010 through April 2012 Groundwater Sampling Results Technical Memorandum*, was completed. In addition to collection of groundwater samples for chemical analyses, groundwater elevations were measured in all 50 shallow and 4 deep wells.
  - On April 11, 2013, UC Berkeley staff conducted its monthly meeting with DTSC to provide project updates and to coordinate anticipated activities.
- b. Actions expected to be undertaken during the current calendar month (May 2013).
- On May 2, 2013, DTSC issued the approval letter for the Final Site Characterization Report (SCR) based on the red-line version sent to DTSC on April 18, 2013 that incorporated DTSC's comments. Copies of the final SCR will be sent to DTSC in May, pending approval from DTSC regarding additional text.
  - On May 9, 2013, UC Berkeley staff conducted its monthly meeting with DTSC to provide project updates and to coordinate anticipated activities.

c. All planned activities for the next month (June 2013).

- UC Berkeley staff will conduct its monthly meeting with DTSC on June 13, 2013 to provide project updates and to coordinate anticipated activities.
- UC Berkeley anticipates submitting a Draft Removal Action Workplan (RAW) for the Research, Education, and Support Area of the proposed Richmond Bay Campus in June. The RAW will evaluate final remedial actions in areas identified in the Final SCR that are recommended for removal actions or further monitoring of soil and/or groundwater.

d. Any requirements under the Order that were not completed.

None.

e. Any problems or anticipated problems in complying with this Order.

- Completion of the Final SCR, continued efforts under the Field Sampling Workplan, and other tasks is dependent on the ability to meet with DTSC staff on a timely basis and may require adjusting schedules and extensions of deadlines.
