

**UNIVERSITY OF CALIFORNIA, BERKELEY**  
**BERKELEY GLOBAL CAMPUS AT RICHMOND BAY**  
**RICHMOND FIELD STATION SITE**  
**MONTHLY SUMMARY REPORT**  
**August 15, 2017**

This monthly summary report (MSR) summarizes environmental site investigation and remediation activities conducted on behalf of The Regents of the University of California (UC) at the University of California, Berkeley's Richmond Field Station Site in accordance with Section 6.3 of the California Environmental Protection Agency, Department of Toxic Substances Control (DTSC) Site Investigation and Remediation Order (Order), Docket No. I/SE-RAO 06/07-004, effective on September 20, 2006.

a. Specific actions taken by or on behalf of Respondents during the previous calendar month (July 2017).

- On July 13, 2017 UC Berkeley staff conducted its monthly meeting with DTSC to provide project updates and to coordinate anticipated activities.
- On January 18, 2017 sediment and porewater sampling was completed in Western Stege Marsh as implementation of the marsh sampling portion of the Field Sampling Plan Phase V (FSP V), approved by DTSC on January 17, 2017. The Draft Phase V Sampling Results Technical Memorandum Western Stege Marsh on the findings of the sampling was submitted to DTSC on July 27, 2017.

b. Actions expected to be undertaken during the current calendar month (August 2017).

- On August 10, 2017 UC Berkeley staff conducted its monthly meeting with DTSC to provide project updates and to coordinate anticipated activities.
- An application for a risk-based PCB cleanup for the Corporation Yard RAW excavation areas was submitted to EPA on August 8, 2017 including a report on the results of the June 2017 supplemental PCB sampling. Upon approval by EPA, updates which impact any of the original removal action excavation boundaries will be provided to DTSC for review and approval. The removal action is tentatively being planned to begin in September pending the results of approval for PCB cleanup.

c. All planned activities for the next month (September 2017)

- The next monthly meeting with DTSC to provide project updates and to coordinate anticipated activities will be held September 14, 2017.
- It is anticipated that the draft annual groundwater monitoring report for 2016-17 will be submitted to DTSC in September.
- It is anticipated that a sampling plan for characterization of PCBs in the EPA North Meadow soil piles, as a follow-up to findings in the Field Sampling Plan Phase IV investigations, will be submitted to DTSC and EPA in September. Sampling will be conducted upon approval by both agencies.

d. Any requirements under the Order that were not completed.  
None.

e. Any problems or anticipated problems in complying with this Order.

- Completion of the RAW removal actions, continued efforts under the Field Sampling Workplan, and other tasks is dependent on the ability to meet with DTSC staff on a timely basis and may require adjusting schedules and extensions of deadlines.
