Greg Haet, P.E.
EH&S Associate Director, Environmental Protection
Office of Environment, Health & Safety
University of California, Berkeley
University Hall, 3rd Floor, #1150
Berkeley, California 94720

Dear Mr. Haet:

The Department of Toxic Substances Control (DTSC) received the revised *Phase V Sampling Results Technical Memorandum Western Stege Marsh*, (Memorandum) for the University of California Berkeley, Richmond Field Station, located at 1301 South 46th Street, Richmond, California. The Memorandum, submitted in August 2018, was prepared by Tetra Tech, Inc. on behalf of the University of California, Berkeley and was revised in response to DTSC's June 2018 comment letter. DTSC has reviewed the revisions and responses. The Memorandum is approved with the following modifications:

1. Page 27 of the *.pdf document: Delete the third sentence, "All seven samples exceed...." after the "Nickel" header as the fourth sentence is correct.
2. Add to Tables 5 and 9 the San Francisco Bay Regional Water Quality Control Board's antimony screening value of 500 ug/L. The reference to be cited is:

San Francisco Regional Water Board, Environmental Screening Levels - (Interim Final - February 2016)

https://pubapps.waterboards.ca.gov/sanfranciscobay/water_issues/programs/esl.html

Please submit a final version of the document in hard copy and electronically within 30 days.

Mr. Greg Haet
