Berkeley, California 94710-2721

Edmund G. Brown Jr.
Governor

August 2, 2018

Mr. Greg Haet
EH&S Associate Director, Environmental Protection
Office of Environment, Health & Safety
University of California, Berkeley
University Hall, 3rd Floor, #1150
Berkeley, California 94720
gjhaet@berkeley.edu

Dear Mr. Haet:

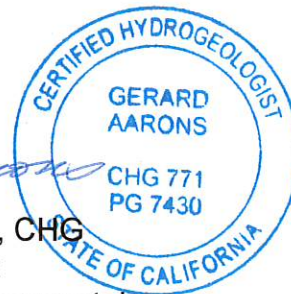

The Department of Toxic Substances Control (DTSC) received the Soil Management Plan proposed sampling approach for the Northern Regional Library Facility (NRLF) Phase 4 for the University of California (UC), Berkeley, Richmond Field Station Site located in Richmond, California. As required by the approved Soil Management Plan, UC provided SMP Form A and Form B, and soil sampling plan via electronic mail on July 19, 2018. DTSC has reviewed the plan and has no comments; however, in the event that contamination is visually detected in the geotechnical borings, additional environmental samples should be collected for analysis by your environmental consultant. Your environmental consultant should also be present during all geotechnical and environmental sampling.

If you have any questions, please contact Lynn Nakashima at (510) 540-3839 or lynn.nakashima@dtsc.ca.gov.

Sincerely,

Lynn Nakashima, Project Manager
Senior Hazardous Substances Scientist
Brownfields and Environmental
Restoration Program
Berkeley Office - Cleanup Operations

Gerard F. Aarons, PG, CHG
Engineering Geologist
