

**RICHMOND FIELD STATION
MONTHLY SUMMARY REPORT**

NOVEMBER 15, 2006

This monthly summary report (MSR) summarizes environmental restoration and order compliance activities conducted on behalf of The Regents of the University of California (UC), Zeneca Inc. and Bayer Cropscience Inc. (collectively, Respondents) at Richmond Field Station since October 13, 2006. This MSR is prepared in accordance with Section 6.3 of the California Environmental Protection Agency, Department of Toxic Substances Control (DTSC) Site Investigation and Remediation Order, Docket No. I/SE-RAO 06/07-004, effective on September 20, 2006. The MSR is presented in two sections. Section 1.0, Activities Completed During Reporting Period, describes work conducted during the reporting period, and Section 2.0, Activities Anticipated for Next Reporting Period, identifies activities proposed for the next 30 days.

**1.0 ACTIVITIES COMPLETED DURING REPORTING PERIOD
(SINCE OCTOBER 13, 2006)**

- UC implemented surface water monitoring pursuant to Section 5.1.4 of the Order.
- Respondents participated in a Site Investigation and Remediation Strategy Meeting with DTSC pursuant to Section 5.1.6 of the Order.
- UC submitted the updated Health and Safety Plan pursuant to 5.3.1c of the Order.
- Respondents submitted a Communication and Coordination Plan pursuant to Section 6.1.1 of the Order.
- UC implemented clapper rail predator trapping as required by the Feral Animal Management Program.
- Respondents provided this MSR, pursuant to Section 6.3 of the Order.
- UC provided a sampling implementation plan to DTSC for surface water monitoring.

**2.0 ACTIVITIES ANTICIPATED DURING NEXT REPORTING PERIOD
(NEXT 30 DAYS)**

- Respondents will continue to develop a Current Conditions Report.
- UC will install signs, pursuant to Section 5.1.3.a. 2 and Exhibit E of the Order.
