Greg Haet, P.E.
EH&S Associate Director, Environmental Protection
Office of Environment, Health & Safety
University of California, Berkeley
University Hall, 3rd Floor, #1150
Berkeley, California 94720
Email: gjhaet@berkeley.edu

Dear Mr. Haet:

The Department of Toxic Substances Control (DTSC) received the Northern Regional Library Facility (NRLF) Phase 4 Soil Sampling Results for the University of California (UC) Berkeley Richmond Field Station Site (Site) located at 1301 South 46th Street, Richmond, California. The letter report dated June 10, 2019 was prepared by Tetra Tech Inc. on behalf of the University of California Berkeley and updates the September 20, 2018 summary letter and provides additional details regarding the construction design and other information requested in DTSC's December 13, 2018 comment letter.

DTSC further discussed the project with UC and Tetra Tech staff and visited the area on August 15, 2019. Based upon our review of the letter report, discussion and site visit, DTSC has no comments regarding the letter report and look forward to receiving the SMP Form C documenting the soil management and final building construction.

If you have any questions, please contact Lynn Nakashima at (510) 540-3839 or lynn.nakashima@dtsc.ca.gov.

Sincerely,

Lynn Nakashima, Project Manager
Senior Hazardous Substances Scientist
Site Mitigation and Restoration Program
Berkeley Office - Cleanup Operations

Gerard F. Aarons, PG, CHG
Senior Engineering Geologist
Site Mitigation and Restoration Program
Geological Services Branch

Mr. Greg Haet
