Dear Mr. Haet:

The Department of Toxic Substances Control (DTSC) received revised Table 1 to the February 5, 2016 *Building 280A and Building 450 Soil Sampling Results, Richmond Field Station Site, Berkeley Global Campus at Richmond Bay, Richmond, California*. Table 1 was received on March 8, 2016 via email. The report and revised table were prepared by Tetra Tech, Inc., on behalf of the University of California, Berkeley (UC) and documents the results of soil samples collected at Buildings 280 A and 450. The table was revised in response to comments provided by DTSC in a letter dated March 3, 2016, and consisted of adding an explanatory footnote regarding aluminum. DTSC has reviewed the table and has no further comments; therefore, the report is approved. Please provide a copy of the report that incorporates the updated table within 14 days of the date of this letter.

If you have any questions, please contact Lynn Nakashima at [lynn.nakashima@dtsc.ca.gov](mailto:lynn.nakashima@dtsc.ca.gov) or (510) 540-3839.

Sincerely,

Lynn Nakashima, Project Manager
