Email: gjhaet@berkeley.edu

Dear Mr. Haet:

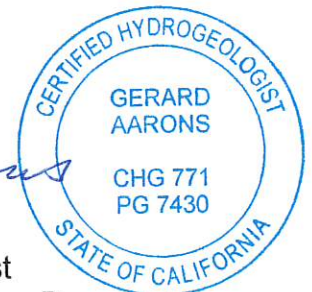

The Department of Toxic Substances Control (DTSC) received on November 7, 2019 Appendix E Piezometer Status Summary to the Draft 2019 Groundwater Sampling Results Technical Memorandum, dated August 2, 2019 for the University of California, Berkeley, Richmond Field Station site located in Richmond, California. Appendix E describes well maintenance issues encountered and actions taken to repair the wells as required by DTSC in our letter dated September 23, 2019. DTSC has reviewed the submittal and found that the summary adequately addresses our well-head maintenance concerns; therefore, with the addition of Appendix E the technical memorandum is approved. Please provide a final hard copy and electronic version within 30 days of the date of this letter.

If you have any questions regarding this letter, please contact Lynn Nakashima at (510) 540-3839 or lynn.nakashima@dtsc.ca.gov.

Sincerely,

Lynn Nakashima, Project Manager
Senior Hazardous Substances Scientist
Site Mitigation and Restoration Program
Berkeley Office - Cleanup Operations

Gerard F. Aarons, PG, CHG
Senior Engineering Geologist
Site Mitigation and Restoration Program
Geological Services Branch

Mr. Greg Haet
